Judge Smith's Statement.
 Judge W. B. Smith, of Richmond, who was an applicant for appointment by Gov. McCreary to the short-term Senatorship made vacant by the death of Senator W. O. Bradley, requests publication in the Times of the following:
 "In Monday's paper, it was stated that I would be a probable candidate for the unexpired term of Senator Bradley. This is a mistake. I did ask the Governor to appoint me for the time he had the power to do. I believed that the Governor would remember what I had done for him politically and the long service I had given to my party in county, State and National races, and I thought it might occur to him that this would be a good opportunity to recognize what I had done, and that he would do me the honor and that of his country to appoint me to this place."—Louisville Times.

Mark Twain's Spiders.
 When Mark Twain in his early days was editor of a Missouri paper a superstitious subscriber wrote to him saying that he had found a spider in his paper, and asking him whether it was a sign of good or bad luck. Twain wrote this answer and printed it:
 "Old Subscriber: Finding a spider in your paper was neither good luck nor bad luck for you. The spider was merely looking over our paper to see which merchant is not advertising so that he can go to that store, spin his web across the door and lead a life of undisturbed peace ever afterwards."

Simplest Way to Kill a Fly.
 The London Lancet, the leading medical journal of the world, says that the best and simplest fly-killer is a weak solution of formaldehyde in water (two tablespoonfuls to the pint of water). Place it in plates or saucers throughout the house. Ten cents worth of this liquid will last an ordinary family all summer. It has no offensive odor, is fatal to disease organisms and is practically non-poisonous except to insects.

To Mammoth Cave, June 11.
 An ideal three days' all-expense tour to Mammoth Cave, personally conducted by Daniel M. Bowmar, leaving Richmond, Thursday morning, June 11th. Bowmar's Tours are very different from the ordinary excursions to the Cave. For folder giving details, address Bowmar's Tours, Versailles, Ky., or see Miss Nellie Taylor, Richmond, Ky. 40-31.

HEARD IN RICHMOND

How Bad Backs Have Been Made Strong—Kidney Pills Corrected.

All over Richmond you hear it. Doan's Kidney Pills are keeping up the good work. Richmond people are telling about it—telling of bad backs made sound again. You believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and of off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Richmond citizen's advice and give Doan's a chance to do the same thing for you.

Mrs. L. H. Todd, 128 Big Hill avenue, Richmond, Ky., says: "I felt run down and in need of a kidney medicine when I heard of Doan's Kidney Pills. I got a supply at Middleton's Drug Store, and they made me feel better and stronger in every way."

Mrs. Todd is only one of many Richmond people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Todd had—the remedy backed by home testimony. 50c at all stores. Foster-Milburn Co., Proprietors, Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

As inquisitive correspondent wants to know what animal can go the longest without food. We don't know; but a Bull Moose can go for years without any "pie".

As a friendly relationship between Villa, Huerta and Carranza must be in the nature of what a chemist would call an unstable compound.

Wonder what New England financiers will do now, since the New Haven railroad is no longer good pickings?

Confederate Monument Dedicated.

Last Thursday there was a vast gathering of American citizens at Arlington. The occasion was the unveiling of the monument erected by the Daughters of the Confederacy to the memory of the Southern dead. The Blue and the Gray mingled in love, sympathy and friendship, forgetting the past and all rejoicing in a united country and a prosperous people. Mrs. Daisy McLauren Stevens, President General of the U. D. C., made the address presenting the monument to the President and through him to all the people of this country. Long applause greeted her when she said, "Yours, Mr. President, was Jefferson's spirit, when you said at Mobile that the United States had no interest in Mexico or any other foreign land, except to see that the citizens enjoyed the right to the pursuit of happiness under a just government." The President quietly acknowledged the tribute. When the President was introduced he was wildly applauded and lengthily cheered. His remarks were characteristic of the man. He spoke clearly and in a manner befitting the position which he occupies. He spoke with the deepest feeling and all who saw him could but feel proud of his leadership. He closed his address by saying: "It is our duty and our privilege to be like the country we represent, and speaking no word of malice, no word of criticism, even, standing shoulder to shoulder to lift the burden of mankind in the future and show the path of freedom to all the world."

Mexican War Situation.

Dispatches from Niagara Falls and Washington City report that mediation proceedings are practically at a standstill awaiting news from General Carranza, chief of the Constitutional faction in Mexico as to whether or not he will send representatives to take part in the mediation proceedings. The Administration is anxious that the Constitutionalists be included in the peace plans being discussed by the A. B. C. mediators, so as to settle one and for all both internal and the international troubles of Mexico. President Wilson and Secretary Bryan do not think that a settlement with Huerta Government without, at the same time, a settlement with the Carranza faction, would be of much value toward securing a stable government in Mexico.

Don't forget JNO. R. GIBSON'S sale.

State Equalization Board Report.

The report just completed by the State Board of Equalization discloses some interesting facts. There are 120 counties in the State. The total taxable property of the State is \$864,273,818. This is an increase by the Board of Equalization of \$18,428,215 over the valuation as assessed by the county assessors. The dog tax amounts to \$103,040. Exemptions on churches, etc., \$80,785,640. The tax rate (State tax rate only) is 50 cents on the \$100. Jefferson county pays the largest tax of all the counties, \$1,024,454, and Menefee the smallest, with \$4,274. Madison's taxable property amounts to \$13,353,090. This is the amount as returned by the county assessor, and the amount was not raised by the State Board as was the case in several of our neighbor counties. Madison paid into the State Treasury \$66,765. Only nine counties in the State paid in more than Madison.

First--As Usual.

About five years ago Richmond's name appeared in the leading men's wear magazines, announcing that Covington & Banks were among the very first merchants in the United States to install Floor Revolving Cabinets for the showing of men's suits. This week their progressive successors, R. C. H. Covington Co. have just finished the building of a Hat Cabinet, one of the most substantial as well as beautiful pieces of furniture to be found in any store in the State. The cabinet was designed by their Hat Man, Mr. B. G. Nunneley, and is built in four sections eight feet long and one section six feet long, giving a total length of 38 feet. Each section has six double rows of 7-16 inch iron rods, holding 40 hats to each double row, or a total of 1,440 hats. In the base are 15 drawers used for caps, white trousers, etc. Each section has two large plate glass doors, each on a track of its own.

Richmond is to be congratulated upon having a firm that is always progressive and the Climax takes off its hat to the firm or individual who is recognized as a leader, not as a follower. Think of it—1,440 hats and no two alike. Its hardly believable, but true all the same. Call and see it whether you wish to buy a hat or not. Mr. Nunneley, the Hat Man, will be glad to show it to you.

Don't forget JNO. R. GIBSON'S sale.

Some Flies.

May swarming campaign in one city has prevented 110,700,000,000 flies from developing. This number of insects if placed in line would extend around the earth at the equator more than 1,600 times. They would form a shaft, 100 feet square at the base, with a height of 50,000 feet.

Don't forget JNO. R. GIBSON'S sale.

Want Youtsey Pardoned?

Petitions prepared for signatures asking the pardon of Henry E. Youtsey, the only one of Gov. Goebel's assassins ever punished, have been sent all over the State, by an organization at Frankfort of which Mrs. Kate Brown is the head. It sets forth that Youtsey has served 13 years, has been used by the Commonwealth as a witness in three trials, and that he was only a boy stenographer when implicated in the conspiracy, has now thoroughly reformed and has for years made himself a moral force in the prison. The further statement is made that such men as General Bennett H. Young, Judge Jas. H. Hazlerig and General Dan D. Lindsay have signed petitions for his pardon.

Judge Stout holds that convicts in Kentucky prisons are entitled back pay from June 15, 1910. If upheld the opinion will cost the State \$100,000.

Three negroes, charged with the killing of Chief of Police Smith, of Jellico, were arrested near the border of Tennessee and Kentucky and there is talk of lynching.

More than 40 publishing companies have submitted bids for supplying the rural schools of the State with textbooks and bids are now being opened by the State Textbook Commission.

In a report from Washington it is stated that practically every vessel in the United States navy is equipped with wireless apparatus, although it has been only 15 years since experiments were first made with this kind of transmission.

Ex-President Roosevelt, his daughter, Mrs. Longworth, and his cousin, Philip Roosevelt, went to Spain to be present at the marriage of Mr. Roosevelt's son, Kermit, to Miss Belle Millard, daughter of the U. S. Ambassador to Spain. The marriage will take place in Madrid today, 10th.

Kansas, Missouri and Oklahoma raisers of wheat will need at least \$2,000 more men to help in harvesting their crops and the commissioners of labor in those States have asked Secretary of Labor Wilson to have his department co-operate with them in obtaining the necessary laborers.

The men will be wanted by June 14 and the pay, it is stated, will range from \$2 to \$3.50 a day. The period of employment will be from three to six months. Various local organizations in the three States will arrange for distributing the men among the farmers.

Indigestion and Constipation.

"About five years ago I began taking Chamberlain's Tablets after suffering from indigestion and constipation for years without finding anything to relieve me. Chamberlain's Tablets helped me at once and by using them for several weeks I was cured of the complaint," writes Mrs. Mary E. McMullen, Phelps, N. Y. For sale by all dealers. jun

Money in a Fish.

One of the largest sturgeon ever seen in this vicinity was caught by Ernest and Leslie Bate, of Fishing Creek, while fishing in the Delaware Bay. It weighed nearly 300 pounds and the roe was sent to New York and netted them \$160.

Mackerel valued at \$25,000 have been taken from the ocean off Cape May in the last ten days by New England fishermen. Approximately 1,000 barrels have been shipped to this city and New York, each barrel containing 55 fish.—Philadelphia Record.

Only One Entirely Satisfactory.

"I have tried various colic and diarrhoea remedies, but the only one that has given me entire satisfaction and cured me when I was afflicted is Chamberlain's Colic, Cholera and Diarrhoea Remedy. I recommend it to my friends at all times," writes S. N. Galloway, of Stewart, S. C. For sale by all dealers. jun

The new Way ~
A Hoosier Cabinet makes a Model Kitchen

Why Do 700,000 Women Own Hoosier Cabinets?

When you know that 700,000 women use Hoosier Kitchen Cabinets three times every day, doesn't it suggest to you that you need this drudgery-saver in YOUR kitchen?

Figure it out to yourself this way: Would they have bought these cabinets without convincing themselves that they SAVE MILES OF STEPS and hours of time? Would so many have bought them at all if users hadn't told others and thus influenced their friends to buy them.

Since this means that more Hoosier Cabinets have been sold than all other 128 makes of cabinets combined, isn't it proof enough that the Hoosier is the best cabinet on the market?

When you see how the Hoosier groups four cupboards around a large metal table and places 100 articles at your fingers' ends so you can sit down and work AND REST while working—you'll want one of these "White Beauties."

Come pick one out today.

A Dog's Devotion.

For fidelity, sincerity, and whole-hearted devotion to his friends, the dog is superior to all other animals, man not excepted. History records no example of loyalty greater than that related of "Bobby" of Greyfriars who for fourteen long and weary years, in all sorts of weather, slept every night on his master's grave. That remarkable exhibition of canine devotion was well worthy of the marble shaft which today stands just outside the entrance to Greyfriars cemetery in Edinburgh to perpetuate the memory of a loving, loyal, unpretentious dog.

Tobacco Brands Have Discussion.

Several brands of smoking tobacco met at the club room the other day and had a discussion as to their several merits.
"Velvet" said, "I'm smooth."
"Stag" said, "No bite, no sting."
"Bull" said, "Familiar the world over."
"Sally Jim" said, "I'm bred in Old Kentucky."
The discussion was warm, enjoyable and peaceful. Each is good and all's well that ends well in smoke.

county than for many seasons. In some sections at least three-fourths of the colts are males.

The features of the first day of the Montgomery county fair will be the mule colt ring. As \$300 in cash is to be hung up in this ring, it is expected to be one of the largest and finest shows of mule colts ever seen in the State.

Mules have sensitive ears and drivers who catch them by the ears are doing them an injury and making them more irritable and afraid of being touched. Blacksmiths sometimes hold them by the ears and hurt them when they are being shod. This makes them dread the blacksmith shop and injures their disposition.

Jonas Weil sold his crop of blue-grass seed on his Bourbon farms to J. Sims Wilson, of Paris, at 60c a bushel, for delivery in August.

Caywood & McClintock, of Paris, shipped a double-deck car of lambs to Jersey City, Saturday, and another shipment of lambs to the same market Monday. The lambs were bought in Bourbon at 7 cts per pound.

Dr. Pritchard, a veterinary surgeon, says: "Check-reins interfere with the horse's breathing, injure the mouth, induce paralysis and render the horse liable to stumble and fall."

Dr. John McBride, of the Royal Veterinary College, London, says: "The check-rein seriously interferes with the circulation of the blood, predisposing to megrims, apoplexy, coma, etc. It also is a common cause of rearing."

"The check-rein is extremely cruel, and a cause of disease. It is an absurdity and a hindrance to a horse's speed," says a veterinary surgeon, London, Eng.

large sum for the study of animal diseases has brought out the fact that, according to the Department of Agriculture, the United States in 1913 lost meat animals to the value of \$150,000,000 thru disease and exposure. Disease carried away cattle, hogs and sheep worth \$122,000,000, while exposure was responsible for the loss of \$28,000,000 in cattle and sheep. Hog cholera cost the country \$73,000,000. The aggregate, says the N. Y. Sun, would furnish meat for all New England for a year.

Rules For Summer Resorts.

Do not blame the landlord for the mattress. This will make hard feelings, also.

Be patient with the canned goods. Remember they are aged.

Praise your landlord's dogs unqualifiedly. They bark because they are pleased, not to keep you awake.

Thank your landlady for the attentions of her children. It is but an innocent curiosity which prompts them to explore your trunk.

Get on good terms at once with your fellow-boarders. Maybe you can borrow money of them.

Do not call your landlord a robber. He may be only a thief.

Be very careful of your table manners. It is quite rude to become excited and babble incoherently if food is brought to the table.

If you are asked to sing, do it. It is their own fault.

When strolling in the meadow, see the bull before he sees you.

In plucking fruit from the trees, select the best. You are entitled to it, heaven knows!

Do not allow the hired man to become too familiar with you (unless you need a drink).

Go home ten days sooner than you expected to. This may save your life.

"Knock-Out" Blow For Whisky Float.

Initial steps have been taken toward a local option campaign to be waged simultaneously this summer in Fayette, Bourbon, Franklin, Montgomery, Anderson, Shelby and Clark counties. By having the election in several counties on the same day, it is hoped, in a measure at least, to prevent the floaters from swarming in from surrounding counties and voting. Every "whisky floater" will have about as much to attend to in his own county as he can look after on election day, which will probably be Sept. 28th.

Farm and Garden

DESTROYING SMUT.

Presence of the Disease in Grain Causes Heavy Annual Loss.

The presence of smut in grain, particularly in the oat crop, causes the farmers of the corn belt a heavy loss annually. Last year smut was particularly bad in some communities, and the farmers of those communities can well afford to undergo the slight expense involved in treating their seed oats for smut.

We have always liked the formalin method of treatment for the reason that, although formalin is a powerful disinfectant, it is not a poison in the same sense that bluestone, for instance, would be classed as a poison. Fur-

HEALTHY WHEAT EAR AND ONE ATTACKED BY SMUT.

thermore, it is inexpensive, and an exceedingly dilute solution of formalin will kill smut spores absolutely. For treating grain one should use one pound of formalin to forty gallons of water. The grain to be treated should be placed on a good, tight floor, after which the water formalin mixture should be added until the whole pile is thoroughly wet. Of course it should be stirred while the liquid is being poured on. There is no need of putting it on with a sprayer, because a considerable quantity of liquid is needed, and the essential thing is to use plenty of it and to put lots of muscle on the scoop shovel handle.

The grain should be stirred and wetted until the water seeps away at the sides, after which it should be shoveled into a steep pile and covered with gunny sacks or horse blankets and left in this condition for two or three hours. At the end of this time the shovel should again be started. Spread the grain out as thinly as the floor space will allow and shovel it over as frequently as possible. In other words, hasten the drying so that the grain will not swell. Generally speaking, if the treatment is begun early in the morning and if the atmosphere is reasonably dry most of the moisture can be got rid of the first day, at least a sufficient amount of it so that there is no danger of the grain spoiling. It may be necessary to shovel over the grain several times the second day. In any event it should not be soaked up until it is dry. Of course if treatment is left until the grain can be taken directly to the field it is not so important that it be dried out completely, but it is important, as said before, to have the grain dried before putting it in sacks. We have known instances where the germinating power of grain was very greatly injured by passing through a sweating in the grain sacks after the smut treatment. It will do no harm and may accomplish some good to dip the grain sacks into the mixture in order to destroy the smut spores that are attached thereto. This can be done in the very first instance and the sacks hung out to dry, so they will be ready when the grain is dry enough to sack up.—Better Farming.

High Priced Eggs.

Eggs to demand the highest market prices must be infertile, uniform and fresh. By keeping the hens and roosters separate, gathering the eggs several times a day, storing them in a cool, dark place and marketing them before they are more than a few days old a commodity can be delivered that will delight the palates of city customers.

In order to make assurance doubly certain, producers of fancy eggs always candle their products before placing them upon the market. Eggs handled in this manner may be placed in cold storage for any reasonable length of time and will come out wholesome and eatable without the bad reputation so characteristic of storage eggs.—James G. Halpin, Secretary Wisconsin Poultry Association.

Spray Apples and Pears.

Apples and pears should be sprayed with arsenate of lead as soon as the petals fall from the blossoms, to check the codling moth and pear slug. As soon as the leaves appear on pear trees they should be sprayed with kerosene emulsion or tobacco extract.

You Must Respect The Flag.

Two anarchists, a man and a woman, told a crowd in Park Row, New York City, in a harangue, that the American flag wasn't worth fighting for, and that the gathering might have been taken for a lot of bums, the police had to forcibly interfere and arrest the speakers to protect them from the infuriated crowd. The country is tolerably safe yet, even in New York City.

Face To Face Courtesy

GOOD telephone service depends largely upon mutual courtesy. The telephone is more useful to those who talk as if face to face, for civility removes difficulties and facilitates the promptest possible connections.

As in other intercourse, it often happens that two or more people wish to talk with the same person at the same time. Without courtesy confusion is inevitable, and the confusion is greater when the people can not see each other.

The operators must be patient and polite under all circumstances, but they will do better work if they meet patience and politeness on the part of telephone users.

The Bell Telephone service enters intimately into the social and business life of each individual. The best results come through the practice of mutual courtesy.

Cook, of Owensboro, who is 84 years old, received a check from the Continental Coal Co., of Chattanooga, for \$202 for 131 bushels of corn raised by him on 1 acre of ground, and by which he established his reputation as the champion corn grower of Kentucky. The corn was shipped to Pineville, to be distributed as seed corn.

Glorious Hair

Men and women of all ages want to be beautiful and attractive, but unsightly thin and lifeless hair destroys half the beauty of a pretty face. If your hair is losing its natural color, falling out, dull, streaky, full of dandruff, too dry, or if the scalp itches and does not seem to be getting better, use Parisian hair cream. Rub it well into the scalp. It will go right to the hair roots, nourish and stimulate the hair to grow and beautiful. It removes dandruff with one application, stops itching scalp, and makes the hair feel fine. Parisian hair cream supplies the hair with what is needed to make it soft, fluffy, black and gloriously radiant. It is sold in fifty-cent bottles by H. L. Perry's Drug Store, and at all drug counters. Look for the trade mark—"The Girl with the Auburn Hair." Accept no other. jun

A Musical Feature of Chautauqua Week

THE WELCH-CHRISTENSEN-BAKER COMPANY.

MISS MARY WELCH, who has a rare contralto voice, rich in its beauty and marked by impressive volume, was for some time soloist in one of Chicago's leading churches, and she has had no trouble in proving her right to a place in the ranks of musical artists. She is tall and stately and has a pleasing personality. In reference to her work the Chicago Record-Herald says: "Miss Welch has a contralto voice of great richness, wide range and power and charms her audience by the earnestness and simplicity of her manner." With a rich and pleasing voice which has been cultivated to a notable degree of perfection, Miss Clara L. Christensen is making an enviable record as a dramatic soprano. In commenting on Miss Christensen's singing the Minneapolis Tribune critic says: "Miss Clara Christensen sang the soprano role. Much praise is due the young soloist for the way in which she sang the different passages of her part. She has a clear, vibrant soprano of lyric quality and a distinct enunciation. These qualities, together with her pleasing manner, won instant recognition." Miss Alice Wright Baker has all the qualifications of a successful pianist. With natural musical talent she took up the study of music at an early age and graduated with high honors from the Toledo (O.) Conservatory of Music. Later she studied with Mme. Julie Reve-King in Chicago. Her training with leading artists has fitted her admirably for her chosen work.

Not Many Left.

Major-General Daniel E. Sickles, who died in New York City, on May 3, was, with two exceptions, General Grenville M. Dodge and General Peter J. Osterhaus—the latter 93 years old, the last surviving Federal corps commander engaged in the Civil War. General Sickles commanded the Third Corps at Chancellorsville and at Gettysburg, and before that commanded a division of the corps at Antietam and Fredericksburg. At Gettysburg, at the famous "Bloody Angle," one of his knees was shattered by a shell, but he buckled a strap about it and stayed on horseback until the day's fight was over; that night his leg was amputated.

Republicans Puzzled.

Republicans are puzzled to know how to explain a bumper wheat crop under Democratic administration.

Hemp vs. Tobacco.

Kentucky once led all the States of the Union in the production of hemp. The State's primacy in hemp growing was as well established at that time as is its leadership in tobacco production today.

According to a Lexington dispatch, Prof. Garman, of the State Experiment Station, believes the farmers are making a mistake in so generally abandoning hemp and giving so much attention to the production of tobacco. He insists that hemp is a remunerative crop when raised for the seed alone. An acre of hemp will produce from 10 to 12 bushels of seed, and hemp seed is in ready demand at \$5 a bushel.

Growing tobacco, Prof. Garman says, is having a bad effect on the Kentucky soils, which already are deficient in vegetable matter, and in some places lacking in other desirable ingredients. "The man who has the nerve to withstand the general tendency, to turn his back on tobacco and grow crops not grown by everybody about him, ought to make more money in the next ten years than he can make from tobacco, and by doing so will certainly take less from his land and find it in better condition at the end."

Prof. Garman believes the State could profitably plant several times the present acreage that is being devoted to hemp, since our hemp growers are not able to supply the demand for seed by many thousands of bushels. In recent years the acreage of hemp has decreased in Central Kentucky every year. In the meantime the acreage of tobacco has been increasing. In the census of 1910 fewer than 500 farms reported hemp and of those only 82 reported sales of hemp seed. There seems no room to doubt that the State would be greatly benefited by a revival in hemp growing. —Farm and Family.

Panama Proposed As a Gambling Center.

A scheme is being promoted in Paris, France, to establish in the city of Panama a gambling casino that will rival that of Monte Carlo. The company has a capital of \$2,000,000, is selling shares at \$5,000 each, and will issue \$1,000,000 in bonds. Various English noblemen are on the board of directors. The company has a site of 250 acres on the Gulf of Panama, and a charter that will run forty years.

Now that Governor McCreary has appointed Hon. J. N. Camden to fill Senator Bradley's place it is time to speculate a little. Suppose McCreary and Camden form a long and short term combination; that Camden furnishes a nice campaign fund; that Stanley sees that he might run third; that the liquor men jump to McCreary. Then the Beckham men will have to watch out. Money and "pie" will do lots of things and organization will be needed. —Lexington Leader.

Adult Illiteracy.

The Frankfort State Journal, discussing adult illiteracy and the work of the Illiteracy State Commission to investigate it, says:

"The eradication of adult illiteracy in Kentucky is a crusade not to be disparaged, and the efforts of the commission appointed by the Governor in compliance with an act of the last General Assembly will be watched with sympathetic interest by the lay public and undoubtedly encouraged by school men."

"The broad general cause of adult illiteracy, of course, everyone knows, is failure of children to go to school, and, consequently, the big question is to get all the children in school. When they are all in school the problem of adult illiteracy for the future is solved."

"One of the reasons why children are not in school is poverty. They have to work. Yet Mrs. Helen Wolcott, of Shelby county, has shown us that girls make more money in three months raising tomatoes on a tenth of an acre and canning them than the average girl makes working all the year round. This throws a little light on the pathway of progress, but it must be brought home to the class that will benefit by it, and that is the class hardest to reach."

Beware of Ointments for Catarrh That Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle. The dissolution of the Standard Oil "trust" evidently has had no ill effect on the earning capacity of the Standard Oil Company, of New York. In the first annual report it has ever issued to its stockholders, covering the calendar year 1913, the company reports net profits of \$16,212,915 for the twelve months. This is equivalent to 21 1/2 per cent on the capital stock outstanding. In previous years the only statements made public by the company were balance sheets, and deductions drawn from that for 1912 placed the net income in the neighborhood of \$15,000,000, or more than \$1,000,000 less than the profits for last year.

Get Ready For Books, Boys!

The public schools of this county will begin Monday, July 6.

I will stand the Percheron Stallion BRILLIANT D.

For the season of 1914 at my farm on Boggs' Lane, near Richmond, at \$15 to insure living Colt

"Brilliant D. is a Percheron horse, bred by W. R. Grimley, of Sweetwater, Ill., color gray, foaled April 6, 1906. Sired by Gaulor's Percheron stallion imported by Dunham, Fletcher & Coleman, of Wayne, Ill. Gaulor's sire by Etretat, he by Volcan, he by Rineville, he by Voltaire, he by Brilliant. Dam, Mag, black mare by Roscoe, he by James Brown's Brilliant (a prize winner at the Chicago World's Fair), he by Brilliant, one of the foremost Percherons of either France or America, for which Mr. Dunham was offered a very long price to let him go back to France. So it will be seen that Brilliant D. is very deeply bred in the brilliant blood and is fully entitled to the name Brilliant."

I wish to impress upon parties having mares to breed that Brilliant D., weighs 1700 pounds. I believe the time is at hand when it takes weight to bring the money. Readers of the Breeders' Gazette will notice that within the last few days large numbers of Percheron mares have been sold for prices around \$500.

At the same time and place, will stand my promising young jack

LONG TOM

At \$10 to insure living Colt

This jack is of big bone, good head and ears and must be seen to be appreciated. His colts are of exceptional size and quality. Long Tom needs no hot air blown on him. Every man that has bred to him his life long friend and patron. Long Tom is to the mule world what Peter the Great and Rex Peavine are to the trotting and saddle horse world. He is by William Todd's big jack, he by Marmaduke, 1st dam by Big Andy, he by Tom Keene, he by Rubie Billington; 2nd dam by Lear's Napoleon.

An Explanation.
In Section 2 of last week's paper, June 3, there was an article entitled "Life in The Country—How to Overcome Its Disadvantages." We wrote a short comment to appear at the head of the article, but by some oversight it was omitted. We desire to explain that the article was written by a young lady of the Brassfield locality and was not intended for publication, but only for neighborhood entertainment. Accidentally it fell into our hands and we thought it so good that we asked the privilege of publishing it but on account of the crowded condition of our columns for several issues past, we had to defer its publication. We now make this explanation in justice to ourselves, inasmuch as it was at our request, not that of the fair young authoress, that it be published.

School Entertainments.

"It never rains but what it pours." This has been proven in the past two weeks or so beyond the peradventure of a doubt. With the late rains, school commencements, address, Model school plays, Little Folks entertainments, May day celebrations, Normal school exercises and I. O. O. F. Memorial services besides an overflow of work at the Climax office to take care of we have not been able to take in all of them. Too many good things at once, a feast then we fear a famine until July 5 when the big Richmond Chautauqua begins. We are not complaining, we would like to have taken them all in or as some wag has said have them "take us in." We did take some of them in, however, and greatly enjoyed them. Joyous youth and happy school days always appeal to us, ambitious, hopeful, aspiring boys and girls are ever interesting. While we cannot even briefly notice all of the evenings of entertainment and social enjoyment there is one that we cannot forget mentioning. It was the address of Mr. Roscoe Gilmore Stout on the evening of Commencement at Caldwell High School. As a commencement address it was in a class by itself. It was unique, out of the ordinary. It was entertaining and instructive. Old lessons were taught in a new way, old ideas dressed in new language this riveted the attention of his hearers and drove home splendid uplifting thoughts and ideals of life. His talk, as speaker himself called it will long be remembered and should ever be recalled with pleasure by the twenty-three young women and men to whom the address was largely addressed and upon whom Supt. Bridges at the close of the evening's entertainment conferred the diploma of Caldwell High School.

I. O. O. F. Memorial Services.

It's a beautiful custom of Odd Fellows once a year to visit the graves of their departed brothers and pay a tribute of love and remembrance to each by spreading flowers thereon, remembering at the same time their virtues and forgetting their foibles, whatever they may have been. Madison Lodge No. 14 set apart the first Sunday in June of each year for this beautiful and touching service. This year services were held on Sunday afternoon in the First Christian church. A program in taste with the occasion had been prepared, consisting of music, scripture reading, prayer and an address. The address of Hon. R. B. Franklin, of Lexington, was the feature of the occasion. Mr. Franklin is an enthusiastic member of the Order, a man of ability and a lawyer of large reputation, which he earned as prosecuting attorney for several terms in his district. His address was hardly up to the expectations of his audience and there was a reason. It's a wonder that he entertained his hearers so well as he did, suffering as he was. Mr. Franklin made no explanation or apology whatever to the audience, but to a few friends, privately, after he had closed he explained that he had been in the dentist's chair two hours or more just prior to beginning his address. Later we learned that he had been advised by his physician, one of our leading practitioners, not to attempt to make an address. He was suddenly stricken with an aching tooth after arriving and was too modest to offer this explanation to his audience and we make it not at all in his request or even by his knowledge, but because we feel that it is due him.

In delivering his address he spoke with too much deliberation and in too low a tone; was not heard distinctly and scarcely at all in some parts of the house. We had a seat close up and heard him fairly well. His subject was "Memories" and he gave us some beautiful thoughts on the subject—hope, as dealing with the future, memory, with the past. At times he was much affected in recounting some early memories connecting his own life with that of Richmond people. After the church exercises were over, the members of the order, with a large number of friends, repaired to the cemetery and there scattered flowers on the graves of their dead.

Class Day at Eastern Normal.
The principal feature of Class and Field Day at Commencement Exercises on Monday morning June 8, was the unveiling and dedication of the Memorial Gate Post presented by the class of 1914, erected as a lasting reminder of the entrance of Eastern Normal High School building. It is of Colonial style, built on a solid foundation of reinforced concrete of velvet finish, dark crimson brick, inlaid with a tablet inscribed "Class 1914" and surmounted with massive plates of Rockcastle stone quarried at Wildie and designed and sculptured by Mr. R. K. Stone of this city. Immediately after the presentation speech by Paris B. Akin, class of 1914, of Burlington, and the response of President J. G. Crabbe in behalf of the school, a copy of Class roll, class day and week's program, copy of year catalogue of year 1314 together with a pledge by the senior class to their Alma Mater and fellow men with the late copy of Richmond Climax was handed to Mr. Stone who placed them between the two top plates of stone and sealed them, there to remain as a lasting record and treasured events of this year and date.

Death of A. M. Davison, Jr.
It always saddens our heart to note the death of a young boy just growing into young manhood and in a few years to become an active factor in the citizenship of our country, state and nation. The death of Morris Davison, nine years old, son of Mr. and Mrs. A. M. Davison, was a sad one to his young comrades, his school fellows and to the community at large. A. M. Davison, Jr., for that was his name, was taken sick on Saturday and died the following Thursday afternoon. For several days no alarm was felt although as a matter of precaution physicians were advised with. On Wednesday morning his condition was much improved and it was hoped all danger had passed. That night he grew worse and by Thursday morning not one of the several physicians in consultation could hold out hope. Peritonitis and appendicitis or something akin was the trouble and the operation performed Thursday morning was of no avail. He passed away about 3:30 o'clock in the afternoon. Brief funeral services were held at the family residence Saturday morning conducted by Elders R. C. Horton and E. B. Barnes, after which his remains were laid to rest in the Richmond cemetery, in the presence of a large number of friends from the city and county.

DEATHS

"Be ye always ready; for in such an hour as you think not the Son of Man cometh." The Son of Man came in armed and unheralded to Joseph Howard Azbill at an early hour on Saturday morning, June 6th. Mr. Azbill arose early and went down stairs for a drink of water, while he was taking suddenly ill. His wife was at his side in a moment and at once called to one of their sons and summoned a physician. It was too late, however. Death came before assistance could be rendered. The cause of his demise being heart disease. Mr. Azbill was a native of Estill county, but had spent the greater part of his life in Madison, was a successful farmer and trader in the Kingston neighborhood. Several years ago he moved to this city and in connection with dealing in stock, ran a livery stable and was assisted in this work by two of his sons. He was in his 54th year and for several months had not been well, though able to attend to business.

Besides his wife, he leaves two brothers, Bert, of Berea, and William, of Jackson county; four sisters—Mrs. Nannie Davis, Mrs. Laura Jones, Mrs. Lou Hardin and Miss Bessie Azbill, of whom reside in Berea; one daughter, Mrs. Geo. Moore, of London; three sons, Wallace, of Corbin, and Delbert and Pearl, of this city. His wife and children were all present at the funeral and burial, which took place in Richmond cemetery, at 4 o'clock service Sunday afternoon at his late home on Broadway by Rev. E. B. Barnes, of the First Christian church, of which Mr. Azbill was a member.

Mrs. Dovey Blythe Anderson, aged 63, died at St. Joseph's Hospital yesterday afternoon at 4 o'clock of heart trouble, after an illness of several months. Besides her sister, Mrs. W. E. Simms, of Paris, she is survived by one son, James Blythe Anderson, of this city.

Mrs. Anderson has lived in Lexington for many years. She was a member of the Daughters of the American Revolution and of the First Presbyterian church. She was the widow of Jos. C. Anderson who died in 1901, and the daughter of Col. James Blythe. Funeral services will be held from the residence Saturday morning at 10 o'clock, Rev. Edwin Muller, pastor of the First Presbyterian church, officiating. Burial will take place in the family lot in the Lexington cemetery. The pallbearers will be Dr. Julian Estill, Thos. A. Combs, Wm. E. Simms, C. M. Corbin, Chas. B. Nichols, Milton Young, John W. Coleman and John B. Gorman. Lexington Herald of Friday, June 5.

Mrs. Anderson was well known in this city and county, having resided in Madison a number of years before removing to Lexington to live.

The following notice was received on Monday from Rev. Oliver V. Real, of Billings, Okla., who conducted the funeral services of the wife of Mr. Edward Combs, requesting its publication: Mrs. Hallie Combs, wife of Edward Combs, of Jefferson, Okla., died on June 3d at her place. Mrs. Combs was a victim of that dread disease, tuberculosis. She was stricken in the very prime of life, being but a few months over 26 years of age. Beside her husband and a little child six years old, her mother, Mrs. Parks, and a brother and sister survive. Having been converted in childhood, her whole life was dedicated to God. She was a member of the Methodist church. Just a few weeks prior to her death she experienced a definite second work of grace, and from that till her death she was constantly praising God. The funeral services were held at Pond Creek, Okla., M. E. church, at which place the body was interred, followed to the grave by a large number of relatives and friends.

Gone to Baltimore.
Mr. Geo. Delamont, with his brother Louis, of Baltimore, for Baltimore. These young men are sons of Mr. and Mrs. Samuel Delamont. Lodell has been suffering with a growth of suspicious character on his neck. His local physician called him cancerous and performed an operation which for a time appeared effective. Later, however, it again developed and upon the advice of his physician has gone to Dr. Kelley's hospital and will probably try the Radcliffe treatment. His mother was Miss Haden, of this county, and his father's family and many relatives and friends in the county are anxious as to the outcome.

Shooting at Lancaster.
News comes from Lancaster of the shooting Sunday afternoon of city marshal Herron by a negro, Bob Strange. We have not been able to learn the correct facts as what led up to the shooting. Marshal Herron was shot twice about the head and once in the breast. His wounds are serious but not necessarily fatal. Herron is said to be a splendid officer and has served as marshal for several terms.

CHAUTAUQUA WEEK HERE JULY 5th TO 11th

Statement By Mr. Bogard

RICHMOND, Ky., June 5, 1914.
Normal City Lodge, No. 162, K. of P., Richmond, Kentucky.
Gentlemen:—I noticed the reference you made to the Kentucky Utilities Company in your "card of thanks," published in the last issue of the Climax. As the local representative of the Utilities Company I am unwilling to let this statement pass without protest from me and correction by me.

Some one has evidently misinformed me. I feel sure that a lodge which advocates such principles as yours would issue such an incorrect, unjust, prejudicial and libelous statement as it knew the facts.

Last year Littlejohn's shows contracted for less than 100 lights. We could furnish this number without any material change in our equipment. At the low ball price, I made an exceedingly low price and discovered when the shows were over that I had not made any money, and moreover, the night the shows departed \$12.00 worth of our wire disappeared. It has not yet been located.

This year the shows wanted 200 lights. In order to serve this number I had to install additional wires, poles and transformers, then take same down when the shows were over. There is no regular demand for light in large quantities in the vicinity of the ball park. And all of this special installation cost considerable money in addition to the cost of the current furnished. While the last agreement, as stated, called for two 200 lights, upon investigation I discovered that the shows actually cut in about 300 lights, and this without consulting me. And yet some one has made you believe that the same number of lights were used this year as last year.

The Utilities Company is not under any obligations to maintain plant capacity and overhead equipment just to serve a carnival company which appears in the city only once a year and then charges that company the same rates it does a regular and constant customer. Can you appreciate this? Yet the charge I made the shows, including the expense of the special service installation, was only \$10.00 per night for over 200 lights. I wonder what you think would have been a fair and reasonable charge for the service.

Yours very truly,
G. T. BOGARD, Local Manager
Kentucky Utilities Co.

Jno. R. Gibson & Co's. Sale
Stirs Business Circles.
The sale at J. R. Gibson & Co. which started Wednesday June 3rd, has caused quite a little commotion among local business circles. A large crowd awaited outside Wednesday morning for the doors to open and in a short time the store was so crowded so that one could hardly move about among the eager buyers who were there to take advantage of the great bargains they are offering. Every day the store is as busy as if it were a holiday shopping crowd in a large city. Great credit should be given Mr. R. B. of St. Louis who is conducting the sale and for the unique advertising gotten out and the way it was managed by him. Mr. Gibson certainly secured the right man to conduct the sale. This together with the bargains they are offering is bound to win and make a successful sale.

The Trip to Mammoth Cave.

Wh are pleased to learn that there is a movement by the young ladies of the city to organize a club for the purpose of giving a grand musical entertainment on Echo River, on the occasion of the Mammoth Cave excursion, June 18th. This musical novelty will be worth more alone than the cost of the trip. Other arrangements are on foot of no less note. It is possible that a string band may accompany the party if suitable arrangements can be made.

Richmond Girl Wins Medal.

Miss Mary Joseph McKee who is attending Nazareth Academy has been awarded the medal for amiable deportment. This honor was won by Little Miss McKee last year also, but the rules of the school will not give a medal to pupils having been in school only one year. She is a very bright student and out of so large a school this is quite a compliment to her.

Come to Owen McKee, Richmond Ky. for dry goods and notions. Others do and why not you. 4f

Spend Some of Your harvest for furniture

Dear Amy: When I wrote you last I thought I had furniture enough, but Baby John soils his dresses so often that I had to buy another chiffonier just to put his things in. He so much enjoys having one of the drawers for his playthings. My, but doesn't a chiffonier help you keep the house in order!
